CladTec

ACCORDING TO EC-REGULATIONS 1907/2006 (REACH), 1272/2008 (CLP) & 2020/878

4.1 Description of first aid measures

Self-protection of the first aider

No action should be taken involving personal risk. Use personal protective equipment as required. Ensure adequate ventilation Avoid inhalation of dusts. Avoid contact with skin and eyes.

Inhalation

IF INHALED: Remove person to fresh air and keep comfortable for breathing. In case of respiratory tract irritation, consult a physician.

Skin contact

IF ON SKIN: Gently wash with plenty of soap and water. If irritation develops and persists, get medical attention.

Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If possible, use isotonic water (0.9% NaCl). After rinsing affected eyes must be seen by an ophthalmologist. Do not rub eyes in order to avoid possible corneal damage by mechanical stress.

Ingestion

IF SWALLOWED: Rinse mouth. Give plenty of water to drink. Do NOT induce vomiting. Seek medical treatment.

4.2 Most important symptoms and effects, both acute and delayed

May cause respiratory irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause respiratory irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to a physician:

Handling of this material may generate a dust which can cause mechanical irritation of the eyes, skin nose and throat.

Treat symptomatically.

Treatment by an ophthalmologist due to possible caustic burn of the eyes may be required.

Symptoms may be delayed for as long as 48 hours following exposure.

5. SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media

Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions. Water spray, foam, dry powder or CO₂.

Unsuitable extinguishing media

Do not use water jet. Direct water jet may spread the fire.

5.2 Special hazards arising from the substance or mixture

May give off noxious and toxic fumes in a fire. Combustion products: Carbon monoxide, Carbon dioxide, Nitrogen oxides (NO_x), Metal oxides.

5.3 Advice for firefighters

Fight fire with normal precautions from a reasonable distance. Fire fighters should wear complete protective clothing including self-contained breathing apparatus. Keep containers cool by spraying with water if exposed to fire. Avoid run off to waterways and sewers.

6. SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

No action should be taken involving personal risk. Wear suitable protective clothing. Ensure adequate ventilation Avoid breathing dust Avoid contact with skin and eyes. Remove contaminated clothing and wash all affected areas with plenty of water. Take precautionary measures against static discharges.

6.2 Environmental precautions

Do not allow to enter drains, sewers or watercourses.

6.3 Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal. A vacuum equipped with HEPA (high efficiency particulate air) filtration is recommended.

Treat the recovered material as prescribed in the section on waste disposal.

6.4 Reference to other sections

See Also Section: 8, 13.

7. SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

When using do not eat or drink. Wear suitable protective clothing. Provide adequate ventilation when using the material and follow the principles of good occupational hygiene to control personal exposures. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not eat or drink or smoke when using this product.
